# My First Contact with Semjase

by *Eduard "Billy" Meier*

January 28, 1975                      1:00 p.m.

It was on Tuesday, the 28th of January, 1975 at 1:00 p.m., when I was at home occupied with taking up tape recorded-voices. A try, the first one in months and still remains as such. Nevertheless on this 28th of January, 1975, I had the lucky chance, to experience something I had not expected. It concerned something that was completely new - something strange; something, that at this point of time I never would have dreamed of, as I had expected these events to occur one year later. Suddenly as if from out of nowhere there was inside of me; a force, which caused me to listen to my insides. Slowly it all became clear to me, and for the first time confused

matters slowly crystallized and became clear. They were words, strange one's thoughts, which slowly made themselves understandable to me and let me listen. They were very peaceful and very familiar to me, even though they forced their way into me in this strange manner. Quite suddenly I conceived the meaning of the forcing into me, symbolic picture forms and the words, which transmitted a peculiar message to me, which was, that I should take a camera and leave the house, which I did without question, and without knowing why. Like an irresistible command the call seemed to be for me nearly like coercion. So I took my vehicle, a motor cycle, and drove away, aimless, as it seemed to me, but feeling to a certain place, which later became evident.

I drove through the village on several streets and in about 10 minutes reached the field; drove across and along the meadows and forests and reached a very lonely area. On a little road, near a small nature-protected region, stood a great longdistance transport truck with case-construction, whose driver just disappeared in the nearby forest, where it seemed he had something to do. Interested in the great van, I stopped and looked it over on all sides; a German truck, designated by the control number.

I just looked at my watch and noticed it was 2:12 p.m. and that I had been driving for a full hour. Just at this moment I heard a very silent and peculiar stirring in the air, so I looked up to the cloudy sky. What I realized, made me think I was dreaming, though what I saw was already known to me since earliest youth. Yet I did not expect this to happen at this time since I had been told not to expect this until one year later.

From out of the clouds an object shot along, lowered its speed and curved along at about a 350 meter distance from the forest. The stirring had at once stopped, when the object lowered its speed. It now flew completely noiseless, and I could make out the exact form: quite doubtlessly it was a disc formed object with similar mounting and base. The upper mounting was larger than the base and was equipped by red, high-put rectangles; if I wasn't seeing wrong. Hastily I seized my camera and aimed at the object, because I knew very well from earlier experience, that I had to be very quick with the photography, if at all I wanted to have a chance to get a picture onto the film. These objects, because of their extreme velocity, crazy flying patterns and sudden disappearance only very seldom can you get a photograph, and then in most cases still the pictures are usually recognizable as dissolved shadows. So flashlike I shot the first picture, exactly at 2:15 p.m., when the object was only about 150 meters away from me and flying at about 150 meters high. Only a tiny second's partpiece after the shooting of the picture, the object vanished with rapid speed away towards the West, and suddenly the stirring was in the air again. Then the flying object returned rapidly and remained in place about 100 meters above the truck, while suddenly the stirring stopped and all was silent. It was exactly 44 meters in distance from the truck, a later measurement revealed, that I shot the second picture. But just the moment I pushed the release on my camera, the object moved back from its frozen position, to "stay" suddenly only 50 meters distance and 100 meters in height behind the truck in the air. Now I was able to recognize the object in great detail: In absolute sureness that it was not an earthly flight machine, but an extraterrestrial flight machine, for the first still for me a UFO, an unidentified flying object of unknown origin: A "Flying Saucer", as these objects are usually called in error and have ridiculously become designated as.

The lower side of the disc seemed like it was vibrating, just as if it was alive. It seemed, as if little waves ran continuously through

the lower side of the ship, by which the ship appeared damaged and very old, nearly like an old wash-board. The waves were not regular and constant, but very peculiar and of energetic character. Solid matter seemed to dissolve in the radiation of these waves, as the truck itself seemed to be suddenly merged in a heat sparkling. The truck seemed to be very unclear and besides this, suddenly appeared to be much farther away than the UFO, which but stood only 150 meters behind it in the air. But it seemed, like the UFO was suddenly in the foreground and the truck much farther behind, which in truth was not the case. When I shot the second picture, it was exact 2:18 p.m. Then the object sped away from its fixed position and with great velocity inclined eastwards into the sky and disappeared in the clouds. Quickly the stirring sound faded away, and left an air of peaceful tranquillity.

I turned back to my bike, which I had left aside the road, started the vehicle and drove across the fields towards the Eastern woods, before which was a large and some boggy clearing of the forest. About 250 meters in front I put my bike in the fieldway and walked along. Sunk in thoughts and so rather disinterested, the truck, which was now about 500 meters distance, was now driving away. The driver evidently had come back from the forest.

When the truck had gone, I was alone in this peaceful region, no other humans were around and now the sounds of nature were clear to hear. About 200 meters in front of me, in the clearing, peacefully grazed five cows, while in the forest over there some ravens high over the birch-trees, firs and birches had a fight with a bird of prey. But suddenly they unexpectedly left their victim and disappeared quietly, while at about 300 meters in the distance a farmyard watch-dog began to bark like crazy. Flying fast, the raven-birds disappeared over the tops of the trees and vanished from

my view. Yet, too, the five cows suddenly in excitement, threw up their heads and looked over the environment. From where they were standing they suddenly hurried away by great wide jumps, away from the forest and into the open field. Only a few meters away from me they hurried along to the peace of the South forest, where they disappeared quickly. Evidently something had frightened and very much horrified them. I evidently wasn't the cause of this fear since they didn't care about me in their flight. As well, the sudden nose-dive escape of the ravens appeared to be very strange, it was not normal for them to run away so fast and especially to leave behind there easy prey.

Two or three minutes passed along, then I heard again the known to me stirring. This time the UFO came from the East, rushing down from the clouds again and lowered its speed quickly over the escape of the ravenbirds and the cows. They evidently has noticed by their fine senses the nearing of the UFO and had fled in wild panic. Very slowly the object now curved over the forest towards the clearing and begin to very slowly sink down there. Quickly I now shot the next picture, the third now, exactly at 2.31 p.m.. One minute later the fourth picture succeeded for me, from about 180 meters in distance. Then I realized, that the UFO had sunk further down to the ground, finally touching gently on the meadow ground of the clearing - completely noiseless, the stirring had died off. Cheeky as I am, as soon as the UFO had landed I began to walk towards the object to observe it closer, if possible, also to get a closer photograph. But about 100 meters before the UFO, a huge power seemed to check me. It just seemed to me, like I would push against the winds of a completely soundless storm or against the opposite pole of a magnet. With all my power I tried to fight against that to move forwards. I even succeeded in this, but only few meters, then the counteracting force was simply too great, so I just sat down on the ground, stared at the object and waited for the things, that surely had to come. I was not mistaken, because

in less than one minute something happened. From behind the UFO a figure appeared, unquestionably a human being in a rather peculiar, but nevertheless familiar to me suit. A cosmic suit, similar in form to some earthly products, but very pliant and light, as well as I could detect. Actually the suit was more equal to an overall with a peculiar grey color. From the very near it looked, as if it were manufactured to look like an elephant's skin - and all the material reminded me of the skin of an elephant, which once I had touched in Africa, and also had a chance to touch and get a closer look at in Switzerland, in the zoo, of course. Also the suit was obviously tight fitting to the body and extremely long-wearing, as was easily apparent. Around the neck was a ring, which appeared to be to hold a helmet of some type, which this long-haired UFO human being was not wearing now, evidently the earth atmosphere was suited for her. Her head was free, and was easily recognized as being a woman or simply a girl. The look on her face was free and open, and nothing pointed to her being a super-human, apparition or spiritualization. She, or it, just seemed to be a normal human being, without any super abilities and without super beauty as religious UFO fanatics or would be contactees always seem to imply. She simply appeared as a quite normal woman of extra terrestrial origin, and to be very beautiful. She also walked quite like a normal woman, yet stronger, self assured but not all painted and puffed up as the earthly women like to do when they are trying to make an impression on a good man, while they usually delude themselves very much and attract only jumping jacks. She just walked like a womanly being, who really is just a woman. I did not notice any earth women vanity, puffing up or exaggeration, just natural self confidence and natural grace.

Slowly this creature came near to me, seized me on my arm and pulled me up. The grip of the girl was strong and sure, but yet very pleasant and somehow vouching for surety. Slowly we walked toward my vehicle, where we both just sat down in the dry grass.

Then the UFO girl began to speak, not in my home language, but yet in a perfect German with an accent which was peculiar to me. Introductions were short with the following conversation taking longer, before the girl took off, disappeared in the UFO and flew away, to vanish from my sight seconds later high above the clouds.

She left me at 3:51 p.m., and at 3:58, just as the ship shot away I took some further pictures from about 185 meters distance. Interesting to notice was just after the ship had left, just below where it was and also sideways to it everything seemed to merge itself into a strange heat-glistening, which seemed to dissolve the environment and as well the contours of the trees etc, while everything around seemed to change colors, evidently from the ship's radiation. Also the distances seemed to alternate themselves, and everything gave the impression of being distorted, as I could notice already when taking the second picture. Alone, here where the spaceship rested the distortion was evident to see, and I could even notice with absolute clarity the blue colored radiation, which was evident on the 5th photo I shot.

After the shooting of my last photo the ship turned away over the tops of three firs and slowly drew northwards into the sky. It then began to disappear from my view behind the trees, I took at 4:00 p.m. the last photo which was the end of the film roll. Only seconds past this last picture again the stirring came up, and the beamship shot out of the standing position at incredible speeds and went straight up into the cloudy sky and finally disappeared from my view.

**The conversation from the first contact  
(True to word as far as remembered)**

**S = Semjase                    B = Billy Meier**

**S     You are a fearless human being.**

**B     I have unlearned "fear" and have become objective.**

**S     I know, for we have studied you over the years.**

**B     Very nice, and why do you do this?**

**S     Because we want to make something clear by you.**

**B     Is there not anyone else suited for this?**

**S     Surely, but we have decided on you, because you have already occupied yourself for many years with this problem and treat it with honesty and sincerity.**

**B     Thanks for the flowers.**

**S     No cause, because they are your own merit.**

**B     Well, but who are you really , madam?**

S Just do call me "you", as I do as well to you.

B Thanks, but who are you?

S I am called Semjase, and I originate from the Pleiades.

B From the Pleiades?

S Surely.

B A nice walk, I would say. How is this possible, perhaps through a hyper-space?

S You often know more than could be desired by us.

B Why? I am closed mouth and no chatterbox.

S I do know, and because of that, your knowings are in the right place. I and the otherones have thus no sorrows in this sake.

B Why have you obstructed for me the way to your ship? Was because of the film in my camera, would it have become destructed?

S Certainly, as you at least shall have photo-proofs.

B I see, I should seek some publicity, but how shall I arrange this?

S You should, and later I will explain the way for you.

B Well then, isn't it rather dangerous to land your ship in an open area where other human beings may pass along?

- S Don't worry, because it is not possible for any other human being to come within a 500 meter circumference of the ship. Also the Beamship is protected from view by the forest and the hill.
- B Then I have been drawn into this meeting alone?
- S Yes, and you know why.
- B I understand, unfortunately.
- S When, in the future if you regret this, nothing will have changed.
- B I already understand, my dear fellow creatures.
- S Surely, their spiritual cognitions rest in the wrong directions. You but have taken the trouble and have learned. You have found the truth and have made the knowledge your own. Because of this you stand out among the great mass of human beings, this is another reason we have decided upon you.
- B You always say "we", does this mean that...
- S Surely. I have already said that you often know more than would be pleasant for us. Please keep silence about it, because the truth is already hard enough for the human being.
- B I was never sure of these things, so consequently I have not told it.
- S You could also tell, but I know that you will keep quiet.

I know that you would even protest the whole event to be a fantasy if someone would try to force you to speak.

B You really know me very well.

S This is why we have chosen you. But now enough of the questions and answers, now listen very thoroughly to what I have to tell you. Write it all down and see that it gets to the public.

B How can I, as I have nothing here for writing. I also have no recorder or something similar.

S Do not worry about that, because you can write it later. I will first explain it all to you so that you have an overview. Later on I will form a mental connection with you and put into you the thoughts from which you can write down everything word by word, all very exact.

B Will this be done by the same process by which you have lead me here?

S You are really very knowledgable and honor our choice in you.

B Thank you.

S All right then. So now listen and only interrupt me when you really do not understand something.

## SEMJASE'S EXPLANATIONS

Editors Note: From here on all sentences are numbered just as they are in the original German version for reference.

(1) For a very long time we have been urged to come in contact with an earth human being, who is sincere and really wants to be helpful in our mission. (2) Many times we have tried this, but the chosen human beings were not knowledgeable enough or willing, and also often lacked loyalty and sincerity. (3) Those who we have endeavoured to meet with feared for themselves and kept silent about our appearing. (4) They asserted that they would be thought of as insane and could be damaged by official and stupid human intrigues, even accuse them of lying. (5) Because of that many boastful human beings pretend that they have had contact with us and have flown in our Beamships. (6) They are nothing more than Charlatans and deceivers who bath themselves in doubtful glory and try to earn profits from others. (7) There are many earth organizations which trouble themselves for explorations of our Beamships, but they have very little materials which are really authentic. (8) They have many of photos which expose nothing more than lights and light apparitions of natural things or are just conscious falsifications. (9) Only very few of these photo-proofs are authentic and really show our Beamships. (10) Most of the photos are fabricated deceptions or photographic deceit, manufactured by cheaters and charlatans who become known worldwide by this. (11) They then write books full of lies and evil deceit all for the purpose of their reputation or of maliciousness. (12) On the other hand there are many who dare to connect us with human religion, with which we do not want to become involved in or have anything to do with. (13) Your so called secatarians even don't shrink from this as they themselves deceive their fellow man with this belief. (14) These infamous and primitive machinations should be stopped before the whole world gets caught up in this

lie. (15) If these cheaters and charlatans would really be in contact with us and in mantel connection, then we would have offered a chance for them to get very clear photo proofs of our Beamships. (16) As they are insincere human beings we have not given this chance to them. (17) For evidence of this fact of truth we offer the chance to you to make distinct pictures of one or our Beamships. (18) Even further on we will offer this chance to you to obtain still better and clearer picture evidence.

(19) The earthhuman being call us extra terrestrials, or star people, or whatever he wants. (20) He attributes to us super-natural powers without knowing us at all. (21) In truth we are human beings just like the earth human, but our knowledge and our wisdom are very much superior to his, especially in the technical areas. (22) Of course the earth human has taken the first step towards cosmic spaceflight, but this is only the first primitive tries. (23) Even if he has reached the moon with his missiles, he has not reached the cosmic space. (24) In this manner he will not reach it at all since necessary for that is the Impulsion, which is able to break the hyper-space and bring together the tremendous distances. (25) Space and time are not overcome by space and time, but by the space and timeless, what that means is that space and time collapse into one another and equal-directed enter into the nulltime. (26) Then just a few seconds are sufficient to hurry through billions of lightyears, practically without loss of time, because the nulltime neutralizes space and time.

(27) Many deceivers and charlatans pretend to stay in contact with other planetary human beings of your solar system and have even flown in their Beamships. (28) That is nothing more than a lie, as mostly the stars they talk about are so desolate that human life is impossible there. (29) Other planets in contrast are since long time

died out of life or they are in the first stage of development. (30) Other solar systems yet carry manifold life, and not only human. (31) The forms of life are various, both human and animal. (32) There are also many animal and even plant forms of life which have themselves evolved to high forms of life. (33) So there does exist many sorts, which have reached large knowledge and freed themselves from there planets and travel through the Universe and sometimes come to the Earth. (34) Many of them are but rather nasty contemporaries and live in a certain barbarism, which is still worse even then yours. (35) Your should be on your guard of these types, because they often fight against and destroy everything that comes along their way. (36) They have often even destroyed whole planets and beaten their inhabitants into barbarous bondage. (37) This is one of our missions, to warn the Earth human about these creatures. (38) Let the human beings know this, because more and more the time approaches where a conflict with these beings becomes unavoidable.

(39) A further mission of ours is aimed at your religions and the connected subdevelopment of the human spirit. (40) Above everything else stands one power that resides over the Life and Death of each creature. (41) This is the Creation alone, who has laid her laws over all. (42) Laws which are irrefutable and own eternal validity. (43) When the human being troubles himself he will recognize them in Nature. (44) They expose for him the way of life and the way towards the spiritual greatness, embodying the goal of life. (45) While the human being continues to indulge himself in his religions and because of that to a wicked heresy, his spirit pines more and more away and finally leads to a bottomless abyss.

(46) The human being must recognize that never can a God overtake the part of the Creation or control the destiny or fate of the human being. (47) A God is only a governor and moreover a human being, who powerfully exercises a reign of tyranny over his fellow

creatures. (48) God is not the Creation, but only a creature from her, like all Creation dependent creatures. (49) But the human being hunts after his religious wrong belief and affirms that God is the Creation itself. (50) He even goes further and pretends that a normal earth human being by the name of Jmmanuel, who from conscious heresies also is named Jesus Christ, would be God's son and the Creation itself. (51) Still different sectarians of the New Time go on and maintain things which already come near the delusion. (52) Yet as already mentioned, also Beamships cheaters and charlatans walk into the same direction. Very clearly they put the lie into the world that we or our brothers and sisters from other parts of the cosmos would come on behalf of a God (with whom they mean the Creation) as angels or similar, to bring to the earth human the long-hoped for Peace and the truth of religion and the protections of order of God. (53) That is nothing more than a well considered lie from sectarians, deceivers and charlatans. (54) For we have never been given any such orders, an as well we never will. (55) The Creation itself never gives commands, because she embodies the greatest power in all the Universe, and never is in need of commands or religions. (56) Religion is only a primitive piece of work of human beings, its purpose being to lead them and to suppress them for exploitation into only which a spiritual wicked life can fall. (57) Bring this truth to the light of the world and make it known to the human beings. (58) This is a further part of our mission. (59) If this does not happen like this, then the mankind slowly destroys itself and falls to complete spiritual darkness.

(60) We know that you have knowledge about a secret old script, which the originals unfortunately were destroyed by the carelessness of our commissioner, who was your friend and by regret has failed in fear. (61) Diffuse the translation of this script, because she is the only one, which is in truth authentic and contains no lies. (62) And as we know, you also are writing a book about this script and about the real truth. (63) To us, it seems the most important book to be written by a human being of your earth, even though it will be harsh in its language and which will meet with hate. (64) It

but offers the truth to the earth human beings when he speculates on it. (65) It is but finally able to destroy in many people the madness of religions or at least to temper them very deliberating. (66) It is an extraordinary good work and you ought to make it accessible to the human being.

(67) For our first meeting I now have told you all necessary, but it is not enough with that. (68) Many further contacts will follow after this first and I will call you in given point of time. (69) But also by the way of "thoughts" transmission, which you call telepathy, I will come in connection with you and transmit further matters to you. (70) Don't worry that I would do this at an unsuited time, but only then when you want it. (71) I know to regard your character and also your will for independence, thus I will always take my direction from you.

(72) This time will come for you, when we will meet together in my Beamship and when also you will get able to undertake flights into the cosmic space with me. (73) But for the next time this will not be possible because from certain circumstances of regrettable occurrences this is not advisable. (74) I will inform you more in detail about this later. (75) So live well until the next time, when I will give you further important informations. (76) In the future our conversations will not be so one sided like today when I had to explain many things to you. (77) In the future each conversation shall be quite normal, as is usual, with questions and answers. (78) See you again, and until then. (79) Goodbye.

# THE CONTACT NOTES.

*of Eduard "Billy" Meier.*

In the first volume of Contact, I wrote a listing of all of the books written by Billy Meier with a description of their contents. These books were all written over a period of years while Billy was having contacts with Extra Terrestrials from the Pleiades. Key among these books were the "Contact Notes" or Semjase Reports as they are sometimes called. These "Notes" are the word for word conversations of Billy with the many different cosmonauts from the Pleiades on a variety of subjects including The History of our civilization, Science, Spiritualism, Meditation and much more. They span over 135 meetings which were held mostly in the Pleiadian Beamships with Sem-

jase, a lady cosmonaut from the Pleiades. Sometimes these off world meetings would be with some of the other cosmonauts including Quetzal, Ptaah, Menera and a handful of others who were all involved in the education and enlightenment of Billy Meier.

When the contacts first started in January of 1975 Billy was told that there would be many more meetings and he would have the opportunity to ask many questions and would be taught on a great variety of subjects. It seems the Pleiadians had for a long time wanted to find someone to help them with their mission of spreading the Truth to a troubled planet called Earth. They had tried many times before but always the person contacted was either scared to reveal his contacts out of fear or was not capable of understanding the information passed on. There were other reasons for the contacts also. The Pleiadians allowed Billy to take photos of their Beamships for "proof" to a doubting world. These photos were better than any we had seen before and would serve to

---

show that Billy's contacts were for real. It has been said by Wendelle Stevens, one of the investigators on the Billy Meier UFO case, that the Pleiadians had provided Billy with the opportunity to take the photos so he would be taken serious by the Government as the Pleiadians apparently had information which they wanted to pass on to certain officials. It is not clear which officials ever received this information and if they ever acted on it.

When Billy was informed by Semjase that there would be more meetings and that he would be allowed to ask questions he wanted to know how he was supposed to remember the details to the answers to he could write them down correctly. You see Semjase revealed to Billy that part of his mission was to make public the conversations so the people of the world could all read, understand and learn. Billy was perplexed about this idea of making the information public as he had no experience in these matters. Billy was a

small town caretaker with no public speaking experience so was reluctant from the beginning. Semjase informed him that this was an important part of the mission and when the time was right they would help him with the publicity problem by explaining how to go about it. The photos he was allowed to take played an important part as they would draw attention to him from all over the world. This was in 1975 and as we have all seen, the photos indeed have played their part well as up till now many of the photos have been brought to the public and have served the purpose of drawing attention to Billy and his information. A most important book "Contact from the Pleiades Vol 1" was released several years ago by Genesis publishing in Arizona. This was a beautiful book, very well done which brought the story of Billy's contacts to the public. Genesis has also released "Contact from the Pleiades Vol 2" along with a series of video tapes describing the investigation of the Billy Meier UFO case. Although the books are out of print the video tapes are still available. In a

---

later article I will cover the tapes and make them available to you.

Billy's meetings with the Pleiadians usually lasted a couple of hours. He would be working at his home and would feel the familiar cooling sensation on his forehead which was a signal to him that the next thoughts would be a telepathic transmission from Semjase. She would let him know when she was coming and where to meet her. When Billy would receive her thoughts he would drop what he was doing, get his camera and ride his moped out into the country where he was directed by Semjase's telepathic thoughts. It wasn't necessary to take a tape recorder or writing materials as the Pleiadians had provided a somewhat more sophisticated manner of recording their meetings.

Once Billy was taken up into the Beamship a device of some kind would actually record the conversations taking place. However unlike the tape recorders that we are used to these

recordings somehow were linked to the mind of Semjase and Billy and as she would answer questions and explain things to Billy her thoughts would be recorded for later transmission. When the meetings were over and Billy had returned to his home he would set himself down in front of his typewriter and wait for the transmissions to come through. Billy would relive the meetings exactly as they had happened and he would type them out word for word. Bear in mind that Billy has only one arm but could still type around 60 words a minute during these transmissions. It is interesting that the typewriter played a big part in the transmissions as the Pleiadians somehow made their device help operate the typewriter. At a time when the typewriter broke down and Billy was forced to use another typewriter the Pleiadians had to discontinue the transmissions until their device could be altered for the new typewriter. Billy has commented that the typing would leave him drained of energy. He would spend perhaps 2 or 3 hours typing and would feel as if he had done

---

12 hours hard work. Exhausted he would usually have to rest after these transmissions. The transmissions usually would take place soon after the actual meeting so Billys memory of the meetings was still very fresh plus combined with the transmissions, the accuracy of the Contact Notes are believed to be very good.

Billy has taken the burden of accuracy of his material very seriously and spends most of his time in re-reading and checking the Notes for errors. Billy writes them in German, which is his native language. The Notes are then given to the members of his group, the FIGU, for clean up. The members of the group then go over the Notes word for word to clean up grammar, spelling etc.. so the Notes are as accurate as possible. Meetings are held on Friday nights and the material is discussed around the kitchen table. Several years ago a German man took on the task of translating the German Notes into English. At that time there were 20 books of Notes each about 100 pages

in length. All of the books were translated into English. Because of the differences in grammar structure some of the Notes are very hard to read as the translations are mostly transliterations, which means they are translated word by word and sentence structure is not very good. The German language puts the verb at the end of a sentence, unlike in English, and combined with the problem that most of the sentences in the Notes are quite long, its very difficult sometimes to understand the true meaning.

Eighteen of the books of the Contact Notes eventually found there way across the ocean to America and begin to pop up here and there. Billy was not happy about this as he did not feel the translations were good enough for the public to read. Here at last someone had the opportunity to speak to human life from another planet and it would be terrible if those conversations would be taken out of context or misquoted or even worse, be misused by un-

---

scrupulous types that would use the information for their own gain. I first became aware of the Contact Notes sometime in 1981 and tried to get a copy of them. I was informed by the people at Genesis publishing that they had the Notes and were trying to get them translated, but the language was difficult to understand as it was not normal German. It turns out that Semjase had learned the German she spoke to Billy through some sort of learning device on her home world. She had spent about 21 days learning the language and then practiced with a language expert 9 to 10 days before the meetings with Billy began. She remarked that the device she learned from was similar to devices we had here where the individual plays tapes while in a hypnotic type state which feeds the information directly into the subconscious. Their methods were more sophisticated but the idea was similar. The odd part was that the German she learned was somehow sampled from an earlier time in Germany when the dialect was much different. Other words Semjase spoke German like a

person from Germany may have spoke 300 years ago. Billy however speaks his own dialect of German which is only spoken in the region of Switzerland where he lives. This made for some amusing moments when they couldn't understand each other. This problem of old German seemed very odd to me until Billy explained to me later that the Pleiadians had come here in the 1600's to study our civilization. They had been here before in our history, but in the 1600's around 250 of them came here and built an underground base to study our growth. For the last 300 years somewhere between 250 to 300 of the Pleiadians were here at all times studying our languages and watching our growth. It must have been back in these times when they put the German language into their computers and so it was probably this German that Semjase learned. Incidentally Billy only met a few of the Pleiadians. It seems that most of them were occupied with other parts of their mission and did not concern themselves with Billy. The mission concerning Billy actually began 70 years

---

before his birth, he was not the first. Semjase was appointed to be Billy's teacher so most of the meetings were only with her. On those occasions where Semjase was not able to meet with Billy there were substitutes for her. During the course of Billy's meetings he was introduced to some of the other Pleiadians and even cosmonauts from other races including the Lyrians, the ancestors of the Pleiadians.

The Contact Notes went on for 3 years and include 135 meetings Billy had with the Pleiadians and Lyrians. They were finally stopped when the Pleiadians felt the meetings no longer served their best interest. The Pleiadians felt Billy had been irresponsible with his health plus there were many problems with his group which were caused I'm sure by the pressure of these off worldy visits. As well Billy had not done well with his public speaking. The few attempts he made did not go over as he was received by the public as a mad man or lunatic. Other members of the FIGU group tried public

speaking and were not received any better. Billy and his followers begin to adopt an attitude of distrust and caution toward the outside world. In 1978 The Pleiadians stopped the contacts with Semjase which were designed as information to be passed onto a waiting world. Billy's last contact with Semjase was on his Birthday February 3rd, in 1984. Since then Billy has had occasional "social" contacts with other Pleiadians, mostly Ptaah and Quetzal which were for his own use and not for the public.

Pressured by the townspeople Billy had moved to a remote spot in the hills where he and his group took up residence in an old farm sadly in need of repairs. Still hundreds of people came to the farm to seek out the man who had talked to the Star people. At first, because of his promise to Semjase to refuse no one, Billy tried to talk to them all, but eventually it was too much for him and visitors were discouraged and Billy went into a forced

---

seclusion, protected by his followers. Years of work went into building a home for themselves. The farm became known as The Semjase Silver Star Center where Billy and his followers, the members of the FIGU, continue to work on Billy's material. Billy has written many other books, which were listed in volume 1 of Contact, mostly based on his education with Semjase and some with the help of Ptaah. Unfortunately his books are all in German and little effort has been made to get them into the English world. The Contact Notes, the conversations with Semjase, continue to be edited even these many years later. Historic information about the group and its members and some less useful information is being taken out. You can still order the Contact Notes in German if you like directly from the Semjase Silver Star Center.

Wendelle Stevens, the original investigator on the Billy Meier case, has translated the first 6 books of the Contact Notes and put them into a book called "Messages from the Pleiades". This is a good way for you to

read this information as it also contains comments by Wendelle on the material and his investigation. The book is still in print and I can supply it to you for \$38.95 if you want it. Wendelle has also written many other books on UFO encounters, some of which collaborate the Pleiadian contacts of Billy Meier.

In Volume 1 of Contact I described all of the books and gave you dates when they might be available in English. Unfortunately we are stalled again. I was a member of the FIGU for a year during which time Billy and I made a deal to open an office here in the states to get his material out into the English world. I hired translators and began work on the books. I spent a frustrating year trying to be of some help to Billy which led to misunderstandings and my leaving the FIGU.

As far as the future I will continue to work in cooperation with Genesis publishing to bring

---

you the Pleiadian information in a responsible and informative manner.

The Contact Notes themselves may never be cleaned up and sold to the public if for no other reason than the sheer size and cost of doing so. I have tried myself to clean up some of the books. I have even paid a translator to re-translate one of the books, but it just proved to expensive to continue. Since there is so much information in the Contact Notes and there is so much demand I have made a series of audio cassette tapes covering most of the material. The tape sets are divided into 5 groups each about 2 1/2 hours long. If you are interested in them they are listed in the back of the magazine. They are all available and you can order them anytime. I encourage you to listen and learn since the purpose of our material lives is to feed our spirit through the information gathered by our material senses. By opening your mind and learning you grow and contribute to your spirit which is connected to the Creative force of the Universe.

Your direct contact to the source of all knowledge that you seek is obtained by feeding your spirit "Truth" which puts you in balance with Creation and gives you power to transcend the material world. When you get closer to understanding life through the power of your spirit you increase your awareness of the Universe around you and find your life filled with the wonderful feeling of Love and happiness. Keep your minds open, challenge everything and search for the Truth.

Thanks for the opportunity to share with you.

# Questions & Answers

I receive a lot of letters from all over the world asking questions about Billy Meier and his contacts with the Pleiadians. It's not possible for me to answer all of them individually, but I have noticed that many people ask the same questions so I have decided to start a Question and Answer section so we can all share. If you have a question that you don't mind sharing send it and I will try to print it out here for you. If your question is of a personal nature be sure that I would not print it. Also because of the sensitivity of some of the questions I will not show any names on the questions like some magazines do. After all the information that counts.

One of the most common questions is

*Why was Billy Meier chosen to be the contactee for the Pleiadians?*

Billy was born on February 3rd, 1937 at 11:00 a.m. in the morning in Bulach Switzerland. He was one of 4 people caused to be born at the same time in different parts of Europe. At the age of 5 he began his contacts with a man named Spath who later turned out to be Semjases' grandfather. Spath told Billy that he procreated his spirit, which means he caused the spirit to be born at a particular time. The time of birth was important to Spath as this was the exact midpoint between the Pisces and Aquarian age. Actually Billy was early by 20 minutes. The other 3 were all born at 11:20 a.m.. He was born Eduard Albert Meier, Billy is a nickname which came much later out of his fondness for old west characters like Billy the

# Questions & Answers

kid. He is still fond of characters in the movies like Charles Bronson, Clint Eastwood and Gene Autry. The reason for 4 people to be born was that one was to be chosen for the material contacts and the other 3 for telepathic contacts to help the fourth. At the age of 5 Billy made his decision and became the material contact. The others were to support Billy and have never come forward in the public. Two of the 4 were killed in a car accident in northern Italy some years back, the 4th one is still alive, and its not known if the Pleiadians are in contact at this time.

Billy believes that his spirit was chosen because of a prior commitment in a previous life. His spirit was brought to Earth many years ago specifically as a "truth bearer" and has worked with the Pleiadians in many other lives. He has some knowledge of previous incarnations and believes he still has 6 more incarnations to fulfill his mission.

## *Do the Pleiadians believe in Re-Incarnation?*

Knowledge of the Spirit and how life cycles work is something that is new thinking to most of us, but apparently an exact science to the Pleiadians. The clues to some of your previous lives can sometimes be found in your dreams and stored within your spiritual sub conscious which can be reached through meditation. I should point out that your personality does not repeat itself. Other words you create a unique material personalty each time you are born. You are only Bob or Nancy or what ever one time. It is a natural

# Questions & Answers

process that you do not have full memory of past lives as for the most part it can be harmful to you to remember the trauma of a previous existence. The accumulation of the knowledge of all of your existences is stored within the Akaschic records and be accessed through the Spirit if you know how. Reincarnation is the real key to understanding the meaning of life. It was taught by Jmmanuel (Jesus Christ) and was in the Bible for a number of years until it was taken out.

## Where are the Pleiadians from?

If you look to the skies for a small cluster of stars which look like a small dipper. You will be looking in the Taurus section of the sky approximately 500 light years away. Designated M45 on a star chart made in 1771 by astronomer Charles Messier the Pleiades are a small cluster of 7 Stars which are have been called the "7 sisters" or the "Daughters of Zeus".

One of the 7 stars is called "Taygeta", which is the area, Semjase says, where her solar system is located. She and her people live in a solar system similar to ours inhabiting 4 planets around their sun, Erra being the main planet. The population of Erra is around 400 million and is about 10% smaller than Earth and has a very similar atmosphere and climate. The rotation of Erra is 365 1/4 days, 23 hours and 59.4 seconds. An hour is called the ODUR and the day is called MUSAL, month is ASAR. Erra is a part second out of our time of reality. Other words they don't live in the stars

# Questions & Answers

you see with your eyes, but within those stars in a different time frame.

The name Pleiades came from the daughter of the founder of their race. Long ago the Pleiadians were part of a race called Lyrians. During a war about 230,000 years ago many of them split off on their own following a leader by the name of Asael who had a daughter named Pleja. After Asael died the system was named after Pleja. Her orders to explore led to Earth following the path of the destroyer comet which had been known in their system in Lyra. By orders of Pleja 3 planets were colonized, Earth, Mars and the then 4th planet called Milona (known as Maldek to some), which later destroyed itself and is now the asteroid belt. The name of Pleja has been handed down through the centuries.

## *Do the Pleiadians know anything about the Bermuda Triangle?*

The mystery of the Bermuda triangle has long plagued us because of the strange disappearances of ships and planes in that area. First I should say that these events are not caused by any Extra Terrestrial influence. As a matter of fact even ET ships from time to time have been effected by the phenomenon also.

There have been 3 different places on the planet earth where similar effects like the Bermuda triangle have happened. The 2 other areas are off the coast of Japan and Madagascar. The Bermuda area is

# Questions & Answers

part of the old continent of Atlantis. There is still a base far deep in the ocean in that area where descendants of the Atlanteans live. They are quite peaceful and do not present a menace to earth. They have ships capable of underwater travel and interstellar flight and have been seen leaving or entering the water on occasion. But this is not the cause of the strange disappearances.

The strange phenomenon of the Bermuda triangle is a dimensions door to a parallel Universe. The dimension door is caused by the effect of two giant suns whose radiations come together 720 light years from our earth. Since the earth is moving this radiation hits the planet in three places only at that time when the earth moves in the focus of this wandering radiation. This radiation serves to open a dimension door to our parallel Universe. This effect is erratic and not predictable.

In the past it has caused on many occasions for the floor of the ocean to rise up and appear as an island for a hour or two. Ships in the night have run aground only to be pulled down when the island sinks again. Also airplanes have flown into this dimension door which acts like a cyclone and have found themselves changed in time forever.

In the parallel Universe, that can be entered through the Bermuda triangle exist 3 earths. This was caused by the planet Venus 3500 years ago. Venus came close to the planet earth and disturbed the harmony of the dimensions and two planets, the original planet and a vapor planet were dragged into the dimension of the future planet. Because of this there are 3 planet earths existing in our parallel universe. The ancient or prehistoric earth, the medium earth which

# Questions & Answers

is still covered in gas and a third earth which is very similar to our present earth. The 3 planets are close together, only a few hundred thousand kilometers apart.

Billy was taken through this dimensional door and saw all 3 earths. Through the use of a special suit Billy was allowed to leave the ship on the prehistoric planet and touch the dinosaurs there. It was on this trip he photographed the dinosaurs with a pyramid in the background. Apparently there was a time when both dinosaurs and pyramids existed. This should be a tough one for science.

The effect of the strange radiation does not effect earth any longer so we should not be plagued with anymore disappearances. At least not ones caused by this effect.
