Seventy-second Contact

Thursday, 3rd February 1977, 00:07 hrs

Semjase:

1. You are forty years old today, for which I and all of us offer the best wishes to you.

Billy:

Thank you. However, I am not here for that reason. Here, I have brought with me a new map of Switzerland, you know, in order to mark in the earthquake zones.

Semjase:

2. I want to remind you today about this because time begins to press.
3. You must yourself slowly try to endeavour to find a suitable place where you can secure yourselves.
4. Already in 1975 I spoke about a suitable Centre for you about which you must now seek for yourselves.
5. Look here in this screen, these delineations; render them on to your map while we talk to one another.
6. Here, this zone contains the mountain block, which is suitable for a settlement, if you do not settle yourselves here in these shaded zones.
7. These here, mark them as primary zones, because in the future they are extremely strongly at risk of severe earth shaking changes, while here, these secondary zones are those into which you are not allowed to settle.
8. Here, this is a volcano region, and the zone here around it is severely endangered in the future if the volcano again awakens to activity, which is to say, will certainly not occur very soon.

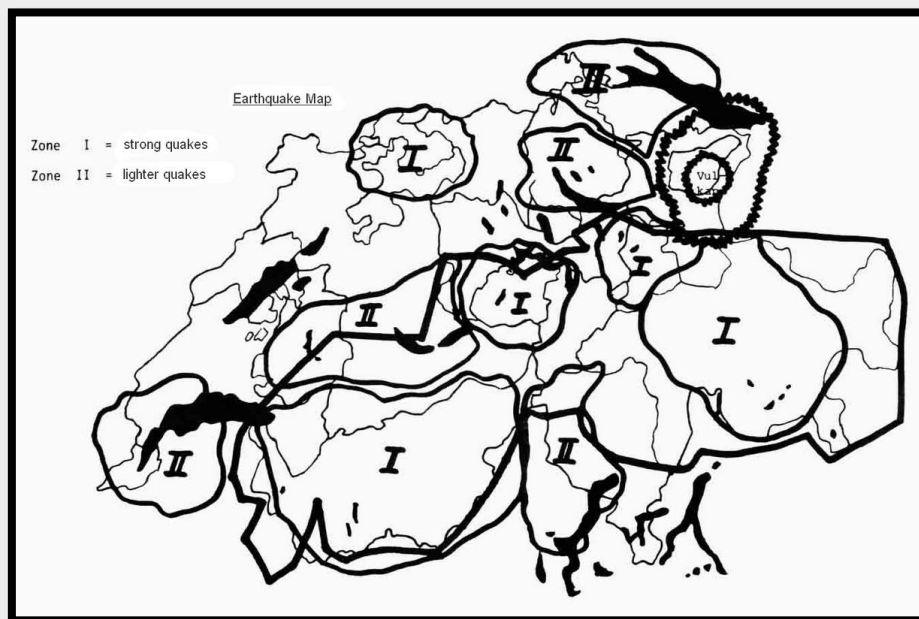

9. You should absolutely avoid this long-stretching zone here, because this, like nearly all flat land in the north of Switzerland, will be destroyed by possible later atomic fire during war actions, if the ancient prophecies should be fulfilled, which however is to hope that this does not happen.
10. There in the north, here in the west and there in the south and in the middle-land are the most secure zones for you, as well as for the future.
11. Do settle somewhere down there and then build a Centre.
12. The most secure location, which you can choose, lies here between both of these secondary quake zones and this volcano zone, although however you have to remain in this narrow channel between these zones.
13. Here, this is also the location, which is predestined for the centre and where also a suitable building and necessary grounds exists, as you indeed already know for years.

Billy:

You speak very easily about this, because this means huge difficulties for us. First is the problem of the property and the site which we first must find, and second then the problem of the finances. The suitable property might in fact surely cost up to 500,000 francs, and from where we should get hold of this capital, this is a riddle to me.

Semjase:

14. Reasoning will smooth the path for you, and besides we will also be sending out reason bearing impulses to all of those, who decisively want to take part in this, in order to take care of the financial matter.
15. We will be sending out impulses of truth, from which they will quite correctly recognise the truth and the necessity of the undertaking.

Billy:

Only then when this turns out well.

Semjase:

16. There will be no coercion wielded because all, through their own reasoning and their own wills, have to make the decision.
17. Furthermore, every individual works for their own evolution, not just in this life but already for the next rebirths as well.
18. Many of your group will find their next incarnations as new personalities in the centre as built by you, which will be steered with our and your own help as well as by the Centre built by you, for which we will give you the instructions.

19. Also, we will monitor the building of the centre into appropriate form, give you detailed instructions and stand by your side with good advice.

Billy:

You speak calmly about great things, girl. Am I allowed at least to know, who will have the next incarnations in the centre, and in what period?

Semjase:

20. Surely, I can mention some to you.
21. Some of the present group will spend an extremely short time in the beyond area, before they come to the Centre and join into the group as other personalities through a rebirth into physical form.
22. The first of the present members will again incarnate as another person into the group between the years 2012 and 2025, others between 2033 and 2036, and the rest between the years 2045 and 2072, always assuming that everything fulfils itself.
23. The reason for this rapid succession, is that the work is not allowed to lie fallow and must be continued forward so that the knowledge, despite all coming confusion and maliciousness, slowly spreads over your world, because only as a result will those of the enormously further growing humanity grasp the knowledge and be guided onto the path of true evolution.
24. Moreover, the tasks of the individuals are very different and often they themselves hardly recognise them.
25. However, they are important and far reaching, as in the future as already in the present as well, even if the individual is still not able to recognise this, as I already said.

Billy:

However, you leave out the names of those, who incarnate again so soon. Yet, you said, that you are allowed to mention some names.

Semjase:

26. Surely, despite a desertion of the group and the mission and despite nasty betrayal among others, the first will be Olga, Amata, Claire and Elsa, who again will incarnate as female life-forms, if all is actually fulfilled, which however partly is in question.
27. Their names and personalities however, as you know, will no longer be the same, but such of a special type, which today on Earth would sound strange and which I am not officially allowed to mention.
28. Thus, however, it will also be with all of the others, with Engelbert who again will appear as a male life-form between 2053 and 2066, when at the same also Margareth will incarnate as a male life-form, as well as also Herbert, however always assuming that everything fulfils itself, and then as new personalities.
29. Between 2065 and 2072 then Jacobus, Marcel, Kalliope, Conrad, Hans, Paula and Pauli appear again in addition to several further persons, whose names are unknown to you, who however in the course of the near future and next few years will still come to meet you.
30. Also, leaving and betraying group members are also in the next life with new personalities, not to be ruled out and who again will confront the group and the mission, if all finds its correction, which however is often in question.

Billy:

This is really quite interesting. However, you state nothing about my littleness, which will certainly be of interest to all.

Semjase:

31. But you know of this.

Billy:

Of course, but it would be more interesting, if you explained it.

Semjase:

32. You know, that regarding this I am not officially allowed to explain everything.

Billy:

I know this, but can you at least tell, just what you are allowed to explain.

Semjase:

33. Surely, you know, how and at what point in time, you will depart from all others unexpectedly and unassumingly from the worldly living area, and you know it is not allowed to be spoken about this.
34. However, so also it is not allowed to be explained at what point in time you will appear again.
35. This precaution rests in the knowledge that an idol would be made of you if the dates would come to be known.
36. It is only allowed to be known, that you will again be, in around 800 years, the centre point of your innermost group, as this already existed in earlier times on various occasions and also exists today.
37. As you, however, have already explained in earlier times you wanted your mission to be fulfilled up to the end, consequently you, respectively, your spirit-form for the next few millennia cannot once again stay away prolonged years in the beyond area, but in rapid form, repeatedly at various locations on Earth, you incarnate, or, it incarnates, in order to fulfil tasks with other peoples and races of your world, whereby you certainly as a new personality also will appear again in contact with your now existing group, which indeed will further spread itself.
38. The dates of these contact happenings and of your rebirth I am not allowed to mention, as you know.
39. The members belonging to your group will recognise you with each appearance, as well as these themselves amongst one another.
40. Certain precautions should also be taken about this, which I will give you later, however which are not officially allowed to be known.
41. I am not allowed to explain more in official form and likewise not are you, outside of your closest group circle, even if you want to.

Billy:

I know this. Thanks for your information. Now, however, still a further question in connection to this: There are quite many, who belong loosely to our group, are our descendants as well, what about them?

Semjase:

42. All of your descendants come again sooner or later to the group, partly already by the year 2067, because some will already soon leave this world, in order to undertake certain tasks with rebirths as new personalities after a really short absence.
43. The still looser members belonging to the group, as you call them, will incarnate again on different occasions already by the year 2065, partly in your Centre, yet the majority outside, such however that they first will come to the group, only after they have become independent.

Billy:

This should be enough information. So, now I am finished with the marking in. Is it correct?

Semjase:

44. Surely, only you should draw in later all of these zones according to their value separately on suitable maps.

Billy:

Okay, I will do this. However, now a question: Harald is with Jacobus, as I indeed have already said to you, before you landed. Can you perhaps once again allow them to hear the sound of the ship when flying away?

Semjase:

45. Surely.

Billy:

Good, thank you. But – how is it with him concerning the incarnation? Also Dolfi, Helga, Mara and Martin would interest me. Renato and Mariella as well.

Semjase:

46. Mariella and Helga will again be female life-forms and incarnate between 2068 and 2071.
47. Mara changes to a male life-form, while Martin, Dolfi and Renato retain their gender.
48. They all appear again as new personalities first after the year 2110, as in fact also all of the others.

Billy:

Aha, and where will they see again the light of the world?

Semjase:

49. Mariella and Helga will under certain circumstances be in the centre, while all of the others are to be outside of it, but will eventually come to the group, although some of them will be born thousands of kilometres away.

Billy:

Thanks for the information. There would then still be Pleja and Guido, what about them?

Semjase:

50. – Are you thinking here about Anke?

Billy:

Naturally.

Semjase:

51. Both will be born outside of the Centre; the girl after the year 2090 and the man after the year 2081, after which he then again finds the final path to the group.
52. Consequently, Guido will not be far from the Centre and comes to the group, while with Anke the matter is still not clear.
53. However, there are the new personalities to consider.

Billy:

Why not? I mean Anke.

Semjase:

54. She herself is still not clear in regard to certain things.
55. However, she also might stay away from the Centre in the manner that she only occasionally appears there, because she will not leave this world there, because she soon goes another way.

Billy:

Ah, so that is it. Is it that, in departing from life in the Centre, it is then necessary for certain things?

Semjase:

56. Surely, because in order to be able to incarnate in the centre there is needed a certain help of each individual.
57. This is connected to the Sohar-Centre, which requires, that each determined day a certain action and a certain thought process must be carried out by each individual group member, as a result of which first the aim directed incarnation with the destination of the rebirth in the centre location or in the nearby surrounds can be successful.

Billy:

Oh, now I understand. The intended Sohar-Centre is then probably a swinging wave and radiation centre with some energies and crystals, etc., yes?

Semjase:

58. Surely, it is so.

Billy:

Then, I know about it. Something similar I know already from a Himalayan monastery, where certain gurus, true masters, determine their birthplace as new personalities. It is an incarnational tran...

Semjase:

59. Stop, for you know, that you are officially not allowed to mention this.

Billy:

Excuse me, it was not intended.

Semjase:

60. This should be enough for today, as well.

Billy:

Okay, I am quite tired. Some sleep would truly do me good. Live well and receive still quite dear greetings from all to you.

Semjase:

61. Quite dear thanks.

62. I am very pleased with all and also pay my heartfelt greetings in love to everyone.

Billy:

Okay, this I will not forget. Goodbye, girl, hopefully you do come quite soon again.

Semjase:

63. If you wish it, then you can call me, but you know this.

64. Currently, I am not so very much burdened with work, consequently I again can turn myself a little to your wishes.

Billy:

Wonderful, really dear thanks for this. Then goodbye – and come back soon.

Semjase:

65. Goodbye.
